Park Transit Bus! Our favorite land tour

Explore the park on a budget! Park Service Transit buses provide an inexpensive alternative to narrated tours. This is a great option for those who want a more flexible trip and/or don't want the expense of a narrated tour. The buses are all hop on, hop off so you can explore the park at your own pace. This is a great option for the independent traveler, those with backcountry hiking experience, or anyone who wants to get their "boots on the ground" and see as much or as little of the park as they desire. We recommend our hearty lunch to go as there is no food or drink services in the park, pre-order [here](#) or at check-in.

Incredible scenery, a narrated history of the park and some of the best opportunities to view the park's wildlife inhabitants! While we can't promise or predict when wildlife will show, the Tundra Wilderness Tour allows plenty of opportunity to look for Dall sheep, moose, caribou, wolves and grizzly bears. When your tour driver is able, he/she will take video footage of animals along Park Road and project these images onto drop-down video screens, featured only on their specially-designed tour buses. This way you can get a close-up look at the roadside action.
